At the recent 2009 Australian Karting Championships, held in Townsville Queensland over the Easter weekend, two Tony Kart pilots captured the top podium spot in two of the most prestigious classes in Australian Karting.

Christopher Hays won the Junior Clubman class in a very dominant display, driving a Tony Racer ST V2 chassis with an ARC engine.

Tyler Greenbury, in his first major event since moving from the Junior to senior ranks, qualified his Tony Racer EVR chassis on pole position, and went on to win the sixteen lap final, untroubled by any competitor, in another dominant display.

Tyler also qualified his Green Racer ST V2 in second position in the Clubman Light class. He was very competitive during the heats, but in the final a small mechanical problem prevented Tyler from what may have been another very good result!
